Thank you Eric,
We will keep you in mind and I will share this message with region 6 Environmental Unit for their consideration as well.

V/R,
Jonathan Pettit

Subject: ORD Reachback support for topics discussed on the NICT call

We participated in the NICT call yesterday morning and heard Reggie's list of topics of concern relevant to the recovery in southeast Texas. Of the 10 or so topics Reggie addressed we have ORD staff who could possibly provide some technical assistance on air issues related to carcass and other debris disposal by burning, approaches to the disposal of debris other than landfilling, assistance concerning landfills in general and the impacts of HHW disposal in them, and ground water sampling, although we understand this to be a "citizen scientist" approach being run by the Texas Commission on Environmental Quality.

Please contact Kelly Smith (smith.kelly@epa.gov or 513-313-8536) and me if something comes up that you think we can help with.

Eric
